### **Raman Technologies, Inc Approved as Registered Education Provider by Project Management Institute**

Baltimore, MD, USA – Sept 18 2012 – Raman Technologies, Inc today announces that the Project Management Institute (PMI), the world's leading project management member association, has named it as an Registered Education Provider (R.E.P.) effective September 18 2012. R.E.P.s are organizations that have been approved by PMI, after meeting rigorous quality criteria for course content, instructor qualification, and instructional design, to help project managers achieve and maintain Project Management Professional (PMP)<sup>®</sup>, Program Management Professional (PgMP)<sup>®</sup> and other PMI professional credentials.

Project managers are increasingly turning to R.E.P.s for certification training and maintenance, especially as more organizations since median salaries for the profession now exceed \$100,000 (USD). Raman Technologies' trainers go through a rigorous selection process based on experience, education, and passion for teaching others. When people train with us, they not only learn the content to pass exams, but they develop relationships with people that want them to succeed in their careers.

Raman Technologies, Inc joins more than 1,400 R.E.P.s in more than 70 countries. These organizations include commercial training providers that design complete educational systems, academic institutions, internal training offices at corporations and government agencies.

#### **About Raman Technologies, Inc**

Raman Technologies Inc is an international, corporate provider for agile and project management training, and coaching. As a learning provider, we offer courses for certified scrum master, certified scrum product owner, certified scrum developer, and approved project management preparatory training. Our courses also count towards professional development unit (PDU) credits. Raman Technologies does public and private training. We are also developing a cloud-based, agile project management tool, called Cognosco. This tool will not only generate the typical agile metrics to help monitor the team's progress, but help you plan Agile projects. Cognosco will track your agile projects, make recommendations based on what worked well in the organization, provide a repository of real time agile information to plan your project, and alert you to areas of concerns.

#### **About Project Management Institute (PMI)**

PMI is the world's largest project management member association, representing more than 600,000 practitioners in more than 185 countries. As a global thought leader and knowledge resource, PMI advances the profession through its global standards and credentials, collaborative chapters and virtual communities and academic research. When organizations invest in project management, supported by PMI, executives have confidence that their important initiatives will deliver expected results, greater business value and competitive advantage.
